Urban Office commenced business in 1986 and has over 20 years experience in supplying office furniture to meet the exacting needs of professional clients. We specialise in supplying ergonomic task chairs, workstations, screens, joinery and casual seating. In recent years our clients have requested that we provide more than just furniture and offer a full “Turnkey” fitout service. This includes total “Design and Construct”, including Workstation and Screen Layout, Floor and Window treatments, Lighting, Airconditioning, Electrical and Data connections. To meet this demand Urban Fitout was established in March of 2006 to bring our clients the most comprehensive fitout and furniture selection service.
