

eona

specifications
5 year warranty

Everything old is new again. Eona is a modular table system designed for flexibility of function allowing a range of configurations to accommodate a range of uses. Designed with the environment in mind, the development of eona ensures low environmental impact throughout the life of the product.

Eona is manufactured from mostly post consumer recycled materials. Eona uses 100% post consumer recycled aluminium for legs & leg support inserts, post consumer recycled steel for outer leg supports, rails & adjustable glides, & recyclable polypropylene.

Eona has been designed for 100% disassembly, ready for recycling at the end of its useful life. Eona is carbon neutral with the greenhouse gases emitted from the manufacture of the table frame & the shipment through Australia offset through a certified carbon offsetting program.
