

benchwork & framework

specifications
5 year warranty

A range of system furniture designed for today, tomorrow and beyond. Attractive glass, aluminium, or fabric screens available 1090h + 1250h. Screen widths include 1200mm, 1600mm and 1800mm wide.

The framework leg system is designed to be flexible & functional. It achieves this through an adaptable cable management system concealed inside its legs & telescopic beams.

The benchwork is a leg-based workstation system with a clean aesthetic. Its fully welded 30mm x 60mm tubular steel end frames are strong enough to be shared between adjacent workstations, making it a cost-effective & practical solution.
